

Study Plan for MBA

Name of applicant:

Country: Bangladesh

Major applied: Master of Business Administration

Studying for an MBA requires a certain determination and strength of character. In recent years, the business world has become rapidly integrated across once restricting borders, and anyone with high goals in the business world must have an international perspective and be aware of the realities of different international arenas.

I am unique, and uniquely fortunate, to have a Bachelor degree from the University of [.....] which has exposed me to different people, cultures, and languages. As a native of Asia, I am familiar with the increasingly important markets of this region, and as such I am thoroughly prepared for the demands and challenges presented by undertaking study in the MBA program at your institution.

Since a very early age, I had developed a keen interest in Business. My Engineering degree has also given a strong foundation to my analytical skills since Computer Science involves a lot of long, complex and intricate calculations and the application of basic math skills. I believe that this unique blend of experiences has made me a person with an original point of view. This blend has given me a broader perspective to and a good understanding of life and a goal to aim for. As a result, I am confident in my ability to adapt to your environment and join your MBA program.

In this light, I sincerely wish to deepen and expand my knowledge of Business Administration and its applications. It is thus with great motivation that I look forward to undertake the challenges brought from reading a degree in Business Administration. I sincerely hope that the concerning authorities will give my application a favorable consideration.
